INSTRUCTOR

Marvin Leventer, DDS

Marvin Leventer, DDS, received his dental degree from the University of Maryland School of Dentistry (UMSOD) in 1990. He then completed a two-year general practice residency at Brookdale Hospital Medical Center in New York. Dr. Leventer is a Diplomate of the American Dental Board of Anesthesiology and a Fellow of the American Dental Society of Anesthesiology. He is also a member of the American Society of Dentist Anesthesiologists and the Academy of General Dentistry. Dr. Leventer is an assistant professor at UMSOD and provides general dentistry within the faculty practice.

Nitrous Oxide Review

(Registration limited to 20 participants)

TIME	8:00 a.m. – 4:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$365.00 Team Member: \$260.00
CREDITS	6 CDE credit hours / Lecture - Hands on
AUDIENCE	Entire Dental Team

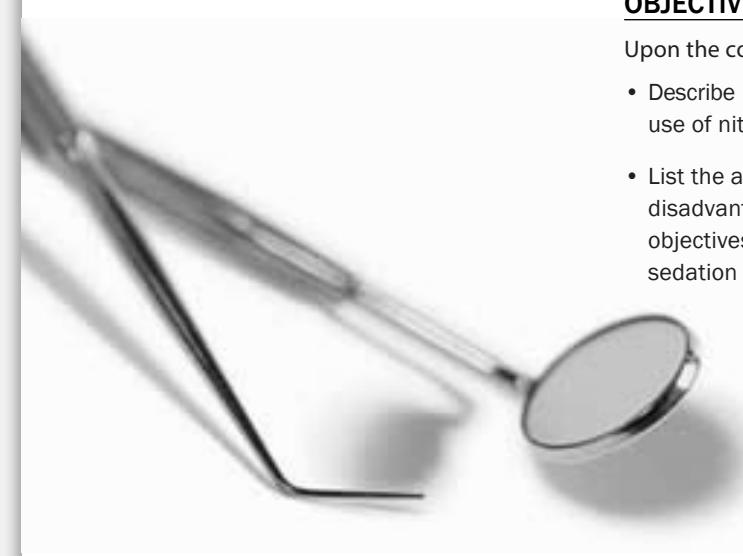

COURSE DESCRIPTION

This course will follow the American Dental Association (ADA) guidelines for teaching nitrous oxide. It will include background, history, patient evaluation and the entire spectrum of sedation/anesthesia. Dr. Leventer will cover respiration and related physiology, drug interactions, contraindication, monitoring and record keeping. Adverse reactions will also be discussed. Attendees will also participate in a hands-on component and review of necessary equipment.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Describe the components and use of nitrous oxide equipment
- Utilize nitrous oxide in the clinical setting effectively and safely
- List the advantages, disadvantages, risks, and objectives of nitrous oxide sedation

INSTRUCTORS**Gary D. Hack, DDS**

Dr. Hack received his DDS from the University of Maryland School of Dentistry (UMSOD) in 1979, and has served as a faculty member for the past 25 years. He completed a general practice residency in Seattle with the U.S. Public Health Service in 1980. Dr. Hack is an associate professor in the Department of Endodontics, Prosthodontics and Operative Dentistry, and director of clinical simulation research. He has been instrumental in integrating digital dentistry and CAD/CAM into the curriculum.

**Eric Levine, DDS**

Dr. Levine is a 1991 graduate of the University of Maryland School of Dentistry. After graduation, he practiced in both Washington, D.C., and suburban Maryland. He volunteered as a Dean's Faculty member before becoming a full-time professor in the Department of Endodontics, Prosthodontics and Operative Dentistry. Dr. Levine is the course director of the year 1 preclinical course in Operative Dentistry. He has an intramural practice with a focus on restorative dentistry, and his research interests include the study of dental materials and the incorporation of technology into practice and teaching.

**Ira Bloom, DDS**

Dr. Levy Dr. Bloom received his DDS from the University of Maryland School of Dentistry, graduating magna cum laude in 1972. After a one-year general practice residency at the Barnes-Jewish Hospital in St. Louis, Dr. Bloom returned to Baltimore. He was in private practice for 35 years, focusing on aesthetic, Cerec and restorative dentistry. Dr. Bloom attended the prestigious Las Vegas Institute for Advanced Dental Studies (LVIS), for aesthetic and occlusion training. He practiced Cerec dentistry for the last 10 years and is now the assistant director of the Advanced Education in General Dentistry Program at the University of Maryland School of Dentistry.

Digital Dentistry: The Future is Now

TIME	8:00 a.m. – 5:30 p.m.	
LOCATION	University of Maryland School of Dentistry	
TUITION	Dentist	\$355.00
	Hygienist/Auxiliary	\$230.00
CREDITS	6 CDE credit hours / Lecture - Hands on	
AUDIENCE	Entire Dental Team	

COURSE DESCRIPTION

The program is designed to introduce participants to the current and emerging technologies for digital intra-oral impressions and CAD/CAM dentistry. This course will provide an understanding of the latest advances in dental CAD/CAM technology and related restorative options. Participants will gain an overview of the science, clinical indications, materials and techniques. They will also gather hands-on experience acquiring a digital impression, designing a digital restoration and milling a final restoration.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Discuss the origins of CAD/CAM technology and its applications to dentistry
- Understand the incorporation of CAD/CAM dentistry for fabrication of milled restorations
- Review the available materials for CAD/CAM restorations and the clinical implications to consider

INSTRUCTOR

Marion C. Manski, RDH, MS
Ms. Manski earned her certificate and associate's degree in 1983 from The Forsyth School for Dental

Hygienists and Northeastern University in Boston. She earned her bachelor's degree in dental hygiene at the University of Maryland School of Dentistry (UMSOD) in 1988. Ms. Manski also graduated from the UM Graduate School with a master's degree in 2004. In 2006, she became certified in the administration of Local Anesthesia (CT). Ms. Manski is an assistant professor and interim director of the Division of Dental Hygiene. She also serves as director of admissions and recruitment for the Dental Hygiene Program.

Local Anesthesia for the Maryland Dental Hygienist

TIME	8:00 a.m. – 5:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dental Hygienist: \$1,200.00
CREDITS	20 CDE credit hours / Lecture 8 CDE credit hours / Clinical - Hands on
AUDIENCE	Dental Hygienists
REQUIRED TEXTS	Malamed, Stanley; "Handbook of Local Anesthesia," fifth edition Fehrenbach, Margaret; Herring, Susan; "Illustrated Anatomy of the Head and Neck," third edition

COURSE DESCRIPTION

Through a combination of lecture and hands-on lab work, participants will gain skills in the implementation of local anesthesia. This course will provide the licensed Maryland dental hygienist with initial didactic and clinical laboratory components necessary to perform local anesthesia in the State of Maryland.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Discuss and describe the anatomy and neurophysiology of pain and pain control
- Determine the pharmacology of anesthetic agents and vasoconstrictors
- Recognize medical history status and administration of local anesthesia
- Demonstrate local anesthesia techniques
- Discuss the use of topical anesthetics and demonstrate proper administration
- List the steps that should be taken in an emergency
- Utilize proper infection control
- Comprehend proper prevention, recognition and management of complications
- Have the initial tools to administer local anesthesia in practice
- Be prepared for the Local Anesthesia NERB prometric exam

INSTRUCTOR

Eung-Kwon Pae, DDS,
MSc, PhD

Dr. Eung-Kwon Pae received his dental degree from Yonsei University, Seoul, Korea, and his certificate in orthodontics from the University of Connecticut. He is currently an associate professor and chairman of the Department of Orthodontics and Pediatric Dentistry at the University of Maryland School of Dentistry (UMSOD). Dr. Pae has researched obstructive sleep apnea throughout his entire academic career.

Obstructive Sleep Apnea and Implications in Dentistry

TIME	8:00 a.m. – 2:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist \$260.00 Team Member \$155.00
CREDITS	5 CDE credit hours / Lecture / Hands - on
AUDIENCE	Entire Dental Team

COURSE DESCRIPTION

This course, designed for general dentists, explains obstructive sleep apnea (OSA), describes the procedure for diagnosis and presents treatment suggestions for patients suffering from OSA. Participants will also learn about the latest research regarding OSA. The course will focus on the rationale behind each oral appliance and include a hands-on workshop.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Understand pathophysiology of OSA
- Comprehend the differences in the pathophysiology and treatment of OSA in adults and children
- Describe roles of dentists in the diagnosis and treatment of OSA

**INSTRUCTOR**

Julius Hyatt, DDS
Dr. Hyatt is a native Baltimorean. After graduating from UM College Park, he received his DDS from the University of Maryland

School of Dentistry (UMSOD) in 1984. Following a general practice residency in anesthesia at Sinai Hospital in Miami Beach, Fla., he returned to The Johns Hopkins University for oral and maxillofacial surgery training. He has been in private practice in oral and maxillofacial surgery in Hunt Valley and Owings Mills, Md., since 1990. Dr. Hyatt is a Diplomate of the American Board of Oral and Maxillofacial Surgery, Fellow of the American Association of Oral and Maxillofacial Surgeons, Fellow of the American College of Dentists and is a member of numerous local and national professional dental organizations.

Team Management of Medical Emergencies in the Dental Office / Review of General Oral Surgery

TIME	8:00 a.m. – 12:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$175.00 Team Member: \$99.00 Team Member with dentist: \$80.00
CREDITS	4 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

COURSE DESCRIPTION

A medical emergency can occur inside and outside the dental office. The doctor is rarely present at the onset of the emergency. This presentation is designed to improve the abilities of doctors and their teams to recognize an emergency and to apply emergency strategies. Dr. Hyatt will also discuss and provide examples of important topics in oral and maxillofacial surgery.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Review diagnosis and management of emergencies
- Discuss the emergency kit and necessary drugs
- Prepare the dental team for an emergency

INSTRUCTOR**Brian LeSage, DDS, FAACD**

Dr. LeSage graduated *magna cum laude* with the Omicron Kappa Upsilon Honor Dental Society award from the University of Maryland School of Dentistry (UMSOD) in 1983. Dr. LeSage has actively integrated academic pursuits with a private practice, first in Washington, D.C., and for the last 21 years in Beverly Hills, Calif. His practice emphasizes esthetic and reconstructive dentistry. He lectures nationally and internationally on the latest techniques in cosmetic dentistry. Dr. LeSage is one of 327 accredited cosmetic dentists in the worldwide American Academy of Cosmetic Dentistry (AACD). He was awarded the status of Fellow in the AACD in 2002 and is presently fellowship chair. Dr. LeSage is the founder and director of the University of California, Los Angeles (UCLA) Aesthetic Continuum Levels I and II. He is also director of The Beverly Hills Institute of Dental Esthetics.

Minimally-Invasive Dentistry in the Esthetic Era: Everyday Systems for Anterior, Adhesive, All-Ceramic Augmentation

TIME	8:00 a.m. – 4:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$375.00 Team Member: \$200.00
CREDITS	7 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

COURSE DESCRIPTION

Are no-prep veneers a reality? Dr. LeSage will teach participants the new skills they need to efficiently accomplish veneers, from no-prep methods to conventional preparations. This lecture will center around four veneer preparation techniques, focusing on the importance of prototypes and a thorough understanding of adhesive materials, techniques, color and cementation.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Understand how outcome-based esthetic dentistry will lead to predictable results
- Consider no-prep veneers in every smile makeover case
- Understand several prototype techniques, and discuss adhesive dentistry's role in these non-retentive, ultra thin, highly esthetic additive porcelain restorations

INSTRUCTOR**Marion C. Manski, RDH, MS**

Ms. Manski earned her certificate and associate's degree in 1983 from The Forsyth School for Dental Hygienists and Northeastern University in Boston. She earned her bachelor's degree in dental hygiene at the University of Maryland School of Dentistry (UMSOD) in 1988. Ms. Manski also graduated from the UM Graduate School with a master's degree in 2004. In 2006, Ms. Manski became certified in the administration of Local Anesthesia (CT). She is an assistant professor and interim director of the Division of Dental Hygiene. Ms. Manski also serves as director of admissions and recruitment for the Dental

Dental Hygiene Block Refresher Course

TIME	8:00 a.m. – 12:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dental Hygienist: \$350.00
CREDITS	4 CDE credit hours / Lecture - Hands on
AUDIENCE	Dental Hygienist
COURSE PREREQS	This refresher course is for Maryland dental hygienists who have already taken the required 28-credit-hour Local Anesthesia course.

COURSE DESCRIPTION

This course will focus extensively on local anesthesia. Through didactic and clinical laboratory components, participants will reinforce their skills at performing inferior alveolar nerve block local anesthesia (IANB).

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Define and pronounce all the key terms and anatomical terms
- List tissues anesthetized by the IANB and describe the target areas
- Locate and identify the anatomical structures used to determine the local anesthetic needle's penetration site on a skull and a patient
- Identify the correct tissues penetrated by the local anesthetic needle for IANB
- Recognize complications that can occur regarding an IANB injection
- Identify the bone structures involved in local anesthesia IANB
- Locate the nerve involved in the IANB local anesthesia and its related structures
- Determine length of penetration for the IANB

INSTRUCTOR**Gary Warburton, DDS, MD, FACS**

Dr. Warburton trained in oral & maxillofacial surgery in the United Kingdom, and completed training at the University of Maryland

Medical Center (UMMC) and R Adams Cowley Shock Trauma Center. Prior to joining the UMMC, he earned his dental surgery and medical degrees from Manchester University in the U.K., where he obtained numerous academic honors and awards, including the Alpha Omega Prize for Clinical Excellence. He is a Fellow of the faculty of dental surgery for the Royal College of Surgeons in England. In addition to his oral and maxillofacial surgery training on both sides of the Atlantic Ocean, Dr. Warburton completed a Fellowship in clinical research at the National Institutes of Health, and wrote numerous articles. He holds a faculty appointment at the UMMC, and he is the chief of maxillofacial trauma at Sinai Hospital. He is a member of the American Association of Oral & Maxillofacial Surgeons, the Maryland Society of Oral & Maxillofacial Surgeons and the Academy of Osseointegration.

How Facial Cosmetic Surgery Goes Hand in Hand with a Beautiful Smile / Temporomadibular Joint Disorders: Non-Surgical and Surgical Approaches

TIME	8:30 a.m. – 4:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$275.00 Team Member: \$175.00
CREDITS	6 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

COURSE DESCRIPTION

In the first of two sessions, Dr. Warburton will provide an overview of how facial cosmetic surgeries can be used together with esthetic dentistry to comprehensively rejuvenate facial appearance.

During the afternoon session, participants will learn about state-of-the-art office-based management strategies for TMJ disorders, including advanced surgical techniques as well as non-surgical treatment options.

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Understand the scope of facial cosmetic procedures
- Develop an understanding of TMJ disorders, with a systematic approach to evaluation, diagnosis and management
- Introduce procedures that can be provided in an office-based practice, including botox and fillers
- Understand the appropriate selection of surgical candidates

INSTRUCTOR**Martin Jablow, DMD**

Dr. Jablow is a clinician, speaker and author. He presents nationally and internationally on many topics, including state-of-the-art dental

technology and dental materials. Dr. Jablow is currently an attending dentist at the JFK Medical Center in Edison, N.J., where he works with patients and trains residents. He is president of Dental Technology Solutions, a lecture and consulting company. He is an active member of the American Dental Association, New Jersey Dental Association, Middlesex County Dental Association and has achieved Fellowships in the Academy of General Dentistry and the International Academy of Dental Facial Esthetics. Dr. Jablow serves on the Dentalcompare CE Advisory Board and the Eco-Dentistry Association Advisory Board.

What's New in High-Tech Dentistry? / The Chartless Practice: Because Paper is Not Free

TIME	8:00 a.m. – 4:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$325.00 Team member: \$210.00
CREDITS	7 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

COURSE DESCRIPTION

During the morning session, Dr. Jablow will teach participants how to successfully integrate high-tech dental software into their practices. His discussion will include: state-of-the-art diagnostics, the latest methods for taking digital impressions and minimally-invasive dentistry.

The afternoon session will show attendees how to convert to a chartless office. Dr. Jablow will explain the benefits of digital records and discuss methods to easily digitize film.

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Understand the importance of digital radiography and 3D imaging
- Implement the latest products and techniques in minimally-invasive dentistry
- Know when social media is right for their office
- Understand how to reduce paper
- Learn the scan and shred method for digitizing charts
- Establish proper backup procedures to ensure integrity of charts
- Determine why outsourcing practice communications saves money

INSTRUCTOR**Deborah Cartee, RDH, MS**

Ms. Cartee was an honor graduate of the Community College of Baltimore, where she received a certificate in dental assisting and an undergraduate degree in dental hygiene. She later received a bachelor's degree from the University of Maryland (UM) and a master's degree in management (healthcare administrative track) from the University of Maryland University College (UMUC). She has worked extensively in private dental hygiene practices for 25 years, first as a certified dental assistant and then as a registered dental hygienist. She became an adjunct faculty member at Baltimore City Community College in 1992, and then joined the full-time faculty in 2004. She began teaching at UMSOD, in the Division of Dental Hygiene, in 2008.

Patient Monitoring for Nitrous Oxide Sedation for the Practicing Dental Hygienist

(Registration limited to 20 participants)

TIME	8:00 a.m. – 3:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dental Hygienist: \$425.00
CREDITS	6 CDE credit hours / Lecture / Hands - on
AUDIENCE	Dental Hygienists

COURSE DESCRIPTION

During the first portion of this course, which will include four hours of lecture and a written exam, participants will receive a comprehensive review of nitrous oxide sedation, including the physiological and pharmacological effects, the stages of drug induced central nervous system depression and management of emergencies.

Attendees will also participate in a two-hour practical demonstration and proficiency testing. Course work includes readings and a homework assignment. Participants must pass both tests with a 75 or greater.

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Recognize patient indications for nitrous oxide sedation
- Describe the physiology of the human respiratory system
- Describe the pharmacological effects of oxygen and nitrous oxide, including drug interactions
- Assess and manage pain and anxiety
- Assess a patient prior to the administration of nitrous oxide
- Describe the stages of anesthesia and the planes of analgesia
- List the steps in administering nitrous oxide sedation
- Calculate total liters of flow per minute
- Properly record chart entries
- List health hazards associated with nitrous oxide toxicity

INSTRUCTOR**Marion C. Manski, RDH, MS**

Ms. Manski earned her certificate and associate's degree in 1983 from The Forsyth School for Dental Hygienists and Northeastern University in Boston. She earned her bachelor's degree in dental hygiene at the University of Maryland School of Dentistry (UMSOD) in 1988. Ms. Manski also graduated from the UM Graduate School with a master's degree in 2004. In 2006, she became certified in the administration of Local Anesthesia (CT). Ms. Manski is an assistant professor and interim director of the Division of Dental Hygiene. She also serves as director of admissions and recruitment for the Dental Hygiene Program.

Local Anesthesia for the Maryland Dental Hygienist

TIME	8:00 a.m. – 5:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dental Hygienist: \$1,200.00
CREDITS	20 CDE credit hours / Lecture 8 CDE credit hours / Clinical - Hands on
AUDIENCE	Dental Hygienists
REQUIRED TEXTS	Malamed, Stanley; "Handbook of Local Anesthesia," fifth edition Fehrenbach, Margaret; Herring, Susan; "Illustrated Anatomy of the Head and Neck," third edition

COURSE DESCRIPTION

Through a combination of lecture and hands-on lab work, participants will gain skills in the implementation of local anesthesia. This course will provide the licensed Maryland dental hygienist with initial didactic and clinical laboratory components necessary to perform local anesthesia in the State of Maryland.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Discuss and describe the anatomy and neurophysiology of pain and pain control
- Utilize proper infection control
- Comprehend proper prevention, recognition and management of complications
- Have the initial tools to administer local anesthesia in practice
- Be prepared for the Local Anesthesia NERB prometric exam
- List the steps that should be taken in an emergency
- Determine the pharmacology of anesthetic agents and vasoconstrictors
- Recognize medical history status and administration of local anesthesia
- Demonstrate local anesthesia techniques
- Discuss the use of topical anesthetics and demonstrate proper administration

INSTRUCTORS**John Basile, DDS, DMSc**

Dr. Basile received his DDS from the State University of New York at Stony Brook and completed a one-year dental residency at the VA Hospital in Washington, D.C. After practicing dentistry for three years, he began his oral pathology and research training at Harvard Dental School, becoming a Fellow of the American Academy of Oral and Maxillofacial Pathology and graduating with a degree in Oral Biology in 2002. He is an assistant professor at the University of Maryland School of Dentistry (UMSOD).

**Rania Younis, BDS, MDS, PhD**

Dr. Younis received her BDS and MDS from Alexandria University, Egypt, and then practiced general dentistry for six years. She earned a PhD in oral and experimental pathology from UMSOD in 2011. Dr. Younis has been a Fellow of the American Academy of Oral and Maxillofacial Pathology since 2009 and her research focuses on early detection and prevention of oral cancer.

**Bernard Levy, DDS, MSD**

Dr. Levy is a specialist in oral and maxillofacial pathology and serves as a consultant to Johns Hopkins Hospital, the Veterans Administration and the Maryland State Medical Examiner's Office. He holds an appointment in the Department of Pathology at the UM School of Medicine and in the Department of Oncology and Diagnostic Sciences at UMSOD. He is currently director of global operations at UMSOD.

Oral Pathology Revisited

TIME	8:00 a.m. – 3:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$275.00 Team Member: \$175.00 Team Member with dentist: \$95.00
CREDITS	6 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

COURSE DESCRIPTIONS**THE CHANGING EPIDEMIOLOGY OF CANCER**

Dr. Basile will present new clinical, epidemiological and molecular data related to tobacco and alcohol use. He will also discuss new forms of oral squamous cell carcinoma (OSCC).

DRUG-ASSOCIATED OSTEONECROSIS OF THE JAW

Dr. Younis will present current definitions of several oral premalignant lesions and provide a comprehensive review on the pathogenesis of each.

A SMORGASBORD OF PATHOLOGICAL DELICACIES

Dr. Levy will lead a discussion of common and uncommon pathologies of the oral cavity

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Be familiar with the epidemiology, appearance and pathogenesis of OSCC resulting from infection with high risk human papillomaviruses and verrucous carcinoma-like proliferations
- Identify different premalignant lesions and conditions of the oral cavity and specify the criteria for follow up and biopsy of premalignant lesions
- Review the differential diagnoses for both common and uncommon pathologies of the oral cavity

INSTRUCTORS**Louis DePaola, DDS, MS**

Dr. DePaola is a professor in the Department of Oncology and Diagnostic Sciences at the University of Maryland School of Dentistry (UMSOD). He is a Diplomate of the American Board of Oral Medicine. Dr. DePaola serves as the executive director of biosafety and continuous quality improvement at UMSOD. He is also director of dental training for the PA-Mid-Atlantic AIDS Education and Training Center.

**Christine Wisnom, RN, BSN**

Ms. Wisnom is a nurse educator for the AIDS Education and Training Center in the Department of Oncology and Diagnostic Sciences at UMSOD. She is a graduate of the UM School of Nursing. Her primary areas of interest are infectious diseases and infection control, and she lectures locally, nationally and internationally on these topics. Chris served as both a member and as the chair of the Infection Control/Biosafety Committee at UMSOD for many years. She has published numerous articles and abstracts in both medical and dental journals.

What's New in Infection Control? / The Scope of Abuse / Staying Current with HIPAA Regulations

TIME	9:00 a.m. – 4:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$275.00 Team Member: \$175.00
CREDITS	6 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

COURSE DESCRIPTIONS**WHAT'S NEW IN INFECTION CONTROL?**

Dr. DePaola will present a detailed update on the CDC guidelines that impact infection control and delivery of health care, including a review of etiquette to lessen the spread of influenza.

THE SCOPE OF ABUSE: REGULATIONS FOR THE DENTAL TEAM

Ms. Wisnom will discuss "red flags" that alert dental health care providers to potentially abusive situations and review state laws and regulations.

STAYING CURRENT WITH HIPAA REGULATIONS

This presentation reviews important HIPAA recommendations for protecting patient privacy, as well as electronic records and tools to prevent information breaches

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Understand the routes of infectious disease transmission
- Develop a practical and cost-effective infection control methodology
- Comprehend the optimum method for obtaining a history
- Integrate the local and state Abuse Resource Directory into office policies and procedures
- Train all new employees on the office HIPAA policies and procedures within 30 days of hire
- Obtain sample HIPAA documents for: Complaint, Notice of Privacy Policy, Acknowledgement of Notice of Privacy Practices and Access to Records Request Form

INSTRUCTOR**Peter Hunt, BDS, MSc,
LDSRCS**

Dr. Hunt is a fourth-generation dentist. He completed residencies in oral and maxillofacial surgery and earned a master's degree in advanced restorative dentistry from the Eastman Dental Hospital in London, UK. He then received specialty certificates in periodontics and prosthodontics from the University of Pennsylvania. Dr. Hunt has continued in private practice while teaching, first as a clinical professor of periodontics at Penn and then as professor of restorative dentistry, post-graduate director and director of periodontal prosthesis and implant dentistry at Nova Southeastern University in Fort Lauderdale, Florida.

Taking Implant Therapy to the Next Level

TIME	8:00 a.m. - 4:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$275.00 Team Member: \$175.00
CREDITS	7 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

COURSE DESCRIPTION

Successful implant therapy requires new approaches to clinical situations. This course will help attendees navigate the copious information and many systems that exist for implants. Dr. Hunt will offer tips to plan a case and move it through to conclusion, effectively and efficiently. He will also review the evolution of dental implant therapy and the restoration of dental implants.

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Treatment plan more advanced cases
- Proficiently choose the appropriate surgical and restorative therapy
- Understand the process to move a case through to conclusion

Acknowledgement: This course is supported in part by an unrestricted grant from Camlog, A Henry Schein Company

INSTRUCTORS**Marvin Leventer, DDS**

Dr. Leventer received his dental degree from the University of Maryland School of Dentistry (UMSOD) in 1990. He then completed a two-year general practice residency and a two-year dental anesthesiology residency at Brookdale Hospital Medical Center in New York. Dr. Leventer is a Diplomate of the American Board of Dental Anesthesiology and a Fellow of the American Society of Dental Anesthesiology. He is also a member of the American Society of Dental Anesthesiologists and the Academy of General Dentistry. Dr. Leventer is an assistant professor of dental anesthesia at UMSOD and provides general dentistry within the faculty practice.

**Richard L. Wynn, PhD**

Dr. Wynn is a professor of pharmacology at UMSOD. He has served as a dental researcher for his entire professional career. He holds a bachelor's degree in pharmacy and a doctorate in pharmacology from the University of Maryland. Dr. Wynn chaired the Department of Pharmacology at UMSOD from 1980 to 1995. Previously, he chaired the Department of Oral Biology at the University of Kentucky College of Dentistry. Dr. Wynn has authored more than 300 publications and has given more than 500 continuing education seminars, nationally and internationally.

**Update for Combined Inhalation-Enteral Conscious Sedation for the Adult Dental Patient**

TIME	Jan. 18: 8:00 a.m. - 2:00 p.m. Jan. 19: 8:00 a.m. - 4:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Cost for single course, Jan. 18 or Jan. 19 Dentist: \$425
	Cost for both Jan. 18 and Jan. 19 courses Dentist: \$720
CREDITS	Jan 18: 5 CDE credit hours / Lecture Jan. 19: 7 CDE credit hours / Lecture Hands-on
AUDIENCE	Dentists with prior sedation training

COURSE DESCRIPTIONS**PHARMACOLOGY UPDATE: ENTERAL-INHALATION SEDATION**

This course provides an update on the drugs used in sedation, including a discussion of newly developed drugs. Dr. Wynn will offer detailed explanation of the dosings, precautions and overdose syndromes of many sedative drugs.

AIRWAY MANAGEMENT | MANAGEMENT OF EMERGENCIES

Through lecture and hands-on participation, attendees will learn to maintain a clear and patent airway. Dr. Leventer will also discuss airway anatomy and respiratory mechanics.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Describe the dosings, precautions, patient variability in response, overdose syndromes, abuse potential and hallucinatory syndromes associated with sedative drugs
- Discuss the use of local anesthetics during sedation
- Understand the criteria for preoperative airway evaluation
- Comprehend methods of supplemental oxygen
- Manage the following emergencies: cardiac arrest, seizure, syncope, angina, bronchospasm and laryngospasm

INSTRUCTOR**Marion C. Manski,
RDH, MS**

Ms. Manski earned her certificate and associate's degree in 1983 from The Forsyth School for Dental Hygienists and Northeastern University in Boston. She earned her bachelor's degree in dental hygiene at the University of Maryland School of Dentistry (UMSOD) in 1988. Ms. Manski also graduated from the UM Graduate School with a master's degree in 2004. In 2006, Ms. Manski became certified in the administration of Local Anesthesia (CT). She is an assistant professor and interim director of the Division of Dental Hygiene. Ms. Manski also serves as director of admissions and recruitment for the Dental

Dental Hygiene Block Refresher Course

TIME	8:00 a.m. – 12:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dental Hygienist: \$350.00
CREDITS	4 CDE credit hours / Lecture - Hands on
AUDIENCE	Dental Hygienist
COURSE PREREQS	This refresher course is for Maryland dental hygienists who have already taken the required 28-credit-hour Local Anesthesia course.

COURSE DESCRIPTION

This course will focus extensively on local anesthesia. Through didactic and clinical laboratory components, participants will reinforce their skills at performing inferior alveolar nerve block local anesthesia (IANB).

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Define and pronounce all the key terms and anatomical terms
- List tissues anesthetized by the IANB and describe the target areas
- Locate and identify the anatomical structures used to determine the local anesthetic needle's penetration site on a skull and a patient
- Identify the correct tissues penetrated by the local anesthetic needle for IANB
- Recognize complications that can occur regarding an IANB injection
- Identify the bone structures involved in local anesthesia IANB
- Locate the nerve involved in the IANB local anesthesia and its related structures
- Determine length of penetration for the IANB

INSTRUCTOR**Christian S. Stohler,
DMD, DrMedDent**

Dr. Stohler is professor and dean of the University of Maryland School of Dentistry and adjunct professor at the University of Michigan School of Dentistry. He received his DMD from the University of Bern, Switzerland, in 1972 and earned his DrMedDent from the same institution in 1975. Dr. Stohler also earned certificates in both oral surgery and prosthodontics. His research interests focus on the pathogenesis of persistent pain conditions and the degree to which the involved processes influence patient's perceptions of disease and/or treatment. Dean Stohler has served as president of the International Academy of Dental Research and the American Academy of Dental Research. He has authored more than 75 articles and book chapters.

**Temporomandibular Disorders:
From Being a Nuisance to Causing Devastation**

TIME	8:00 a.m. – 3:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$275.00
	Team Member: \$175.00
CREDITS	6 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

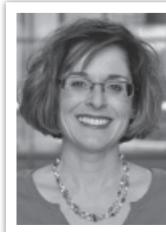

COURSE DESCRIPTION

The world has changed when it comes to TMD. Structural issues within a tight topographical domain may be relevant in cases where the condition is a nuisance for the patient. However, in those cases exhibiting persistent pain, changes within the central nervous system are drivers of the symptomatology underlying the patient's devastation. It is critical to understand the different disease mechanisms and treatment focus for patients with nuisance TMD as opposed to patients for whom the disease is devastating.

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Understand the current state of knowledge regarding the underlying mechanisms that shape a patient's perception of disease
- Recognize factors that influence the resiliency or vulnerability for greater disease severity
- Know how to differentiate care for patients experiencing acute versus chronic pain

INSTRUCTOR**Marion C. Manski,
RDH, MS**

Ms. Manski earned her certificate and associate's degree in 1983 from The Forsyth School for Dental Hygienists and Northeastern University in Boston. She earned her bachelor's degree in dental hygiene at the University of Maryland School of Dentistry (UMSOD) in 1988.

Ms. Manski also graduated from the UM Graduate School with a master's degree in 2004. In 2006, she became certified in the administration of Local Anesthesia (CT). Ms. Manski is an assistant professor and interim director of the Division of Dental Hygiene. She also serves as director of admissions and recruitment for the Dental Hygiene Program.

Local Anesthesia for the Maryland Dental Hygienist

TIME	8:00 a.m. – 5:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dental Hygienist: \$1,200.00
CREDITS	20 CDE credit hours / Lecture 8 CDE credit hours / Clinical - Hands on
AUDIENCE	Dental Hygienists
REQUIRED TEXTS	Malamed, Stanley; "Handbook of Local Anesthesia," fifth edition Fehrenbach, Margaret; Herring, Susan; "Illustrated Anatomy of the Head and Neck," third edition

COURSE DESCRIPTION

Through a combination of lecture and hands-on lab work, participants will gain skills in the implementation of local anesthesia. This course will provide the licensed Maryland dental hygienist with initial didactic and clinical laboratory components necessary to perform local anesthesia in the State of Maryland.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Discuss and describe the anatomy and neurophysiology of pain and pain control
- Determine the pharmacology of anesthetic agents and vasoconstrictors
- Recognize medical history status and administration of local anesthesia
- Demonstrate local anesthesia techniques
- Discuss the use of topical anesthetics and demonstrate proper administration
- List the steps that should be taken in an emergency
- Utilize proper infection control
- Comprehend proper prevention, recognition and management of complications
- Have the initial tools to administer local anesthesia in practice
- Be prepared for the Local Anesthesia NERB prometric exam

INSTRUCTOR**Harvey Levy, DMD,
MAGD**

Dr. Harvey Levy is in private general dental and hospital practice in Frederick, Md., where he emphasizes dental care for individuals who have anxiety or special needs. He currently serves as department head at Frederick Memorial Hospital, where he provides comprehensive dental care in the operating room (OR). During his career, Dr. Levy has treated 1,500 patients who were under sedation in the OR, and has administered sedation during 31,000 patient visits to his office. He is ALCS certified, holds a Class 1 sedation permit, and has been a BCLS instructor-trainer for the American Heart Association. Dr. Levy has earned a Mastership and three Lifelong Service Recognitions by the Academy of General Dentistry (AGD), along with eight Fellowships, four Diplomate certificates and board certification in integrative medicine.

Management of Anxious and Special-Needs Patients

TIME	8:00 a.m. – 4:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$275 Team Member: \$175
CREDITS	7 CDE Credit Hours / Lecture
AUDIENCE	Entire Dental Team

COURSE DESCRIPTION

This participation course will give attendees the necessary knowledge and skills to treat difficult or otherwise unmanageable patients. Dr. Levy will discuss many examples of complicated cases, covering medically-compromised patients of all ages, from the apprehensive to the combative.

OBJECTIVES:

Upon completion of this course, the participants should be able to:

- Understand how personally gratifying and financially rewarding it can be to treat anxious, medically compromised and special needs patients
- Comprehend the clinical techniques for performing standard procedures on difficult patients of all ages and conditions.
- Implement protocols for treating medically challenged and special-needs patients in the office, in the hospital, in the operating room and elsewhere challenged and special-needs.
- Demonstrate experience with special equipment, such as wraps, mouth props, nitrous oxide masks, mobile dental carts, hand-held x-ray units, self-developing film, instant images and modified toothbrushes

INSTRUCTOR**Ken Parrish, DMD**

Dr. Ken Parrish graduated from the University of Louisville School of Dentistry (ULSOD) in 1989. He completed his specialty training at the University of Iowa in periodontics and also received his PhD in microbiology. He is certified by the American Board of Periodontology. Dr. Parrish was an assistant professor in the Department of Periodontics at the University of Kentucky College of Dentistry before receiving an appointment as the head of the Section of Periodontics at the Cleveland Clinic Foundation, where he was the primary surgeon in the Center for Implant Excellence. Dr. Parrish is currently in full-time private practice limited to periodontics and implant surgery.

Treatment Planning and Prosthetics of the Full Arch Rehabilitation using All-on-4

TIME	8:00 a.m. – 4:30 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$275.00 Team Member: \$175.00
CREDITS	7 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

ACKNOWLEDGEMENT

This course is supported in part by an unrestricted educational grant from Nobel Biocare.

This course is intended for clinicians who are experienced in implant dentistry.

COURSE DESCRIPTION

The All-on-4™ technique offers a viable and cost-effective implant-based solution for edentulous jaws. This course will present a surgical and prosthetic overview of the All-on-4™ technique, including immediate function and full-case rehabilitation.

Immediate placement and provisionalization of implants in the esthetic zone may improve soft tissue esthetics, bone quality and patient acceptance with predictably successful outcomes. Take advantage of this opportunity to integrate this proven practice builder into routine implant treatment.

OBJECTIVES:

Upon the conclusion of this presentation, each participant should be able to:

- Comprehend how the All-on-4 technique™ leads to immediate patient satisfaction
- Understand when use of the All-on-4 technique™ can benefit the patient
- Develop skills at implementing the All-on-4 technique™ in practice
- Develop new implant dentistry skills

**INSTRUCTORS****Marvin Leventer, DDS**

Dr. Leventer received his dental degree from the University of Maryland School of Dentistry (UMSOD) in 1990. He then completed a two-year general practice residency and a two-year dental anesthesiology residency at Brookdale Hospital Medical Center in New York. Dr. Leventer is a Diplomate of the American Board of Dental Anesthesiology and a Fellow of the American Dental Society of Anesthesiology. He is also a member of the American Society of Dental Anesthesiologists and the Academy of General Dentistry. Dr. Leventer is an assistant professor of dental anesthesia at UMSOD and provides general dentistry within the faculty practice.

**Richard L. Wynn, PhD**

Dr. Wynn is a professor of pharmacology at UMSOD. He holds a bachelor's degree in pharmacy and a doctorate in pharmacology from the University of Maryland. Dr. Wynn chaired the Department of Pharmacology at UMSOD from 1980 to 1995. Previously, he chaired the Department of Oral Biology at the University of Kentucky College of Dentistry. Dr. Wynn has authored more than 300 publications and has given more than 500 continuing education seminars, nationally and internationally.

Combined Inhalation-Enteral Conscious Sedation for the Adult Dental Patient

(Registration limited to 20 participants)

TIME	8:00 a.m. – 5:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$1,895.00 Team Member: \$595.00
CREDITS	24 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

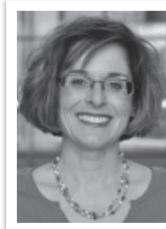

COURSE DESCRIPTION

This case-based course will provide in-depth discussion of each aspect of the sedation regimen, including scenarios of how to do things correctly as well as what can go wrong. All the objectives in the ADA Guidelines will be covered and a comprehensive set of reference materials will be provided. No prior experience is necessary for this course.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Discuss indications and contraindications for oral and inhalation sedation
- Comprehend the mechanisms, receptors and interactions of commonly used agents
- Understand airway anatomy and respiratory physiology as they relate to sedation
- Understand airway anatomy and respiratory physiology as they relate to sedation

INSTRUCTOR**Marion C. Manski, RDH, MS**

Ms. Manski earned her certificate and associate's degree in 1983 from The Forsyth School for Dental

Hygienists and Northeastern University in Boston. She earned her bachelor's degree in dental hygiene at the University of Maryland School of Dentistry (UMSOD) in 1988.

Ms. Manski also graduated from the UM Graduate School with a master's degree in 2004. In 2006, she became certified in the administration of Local Anesthesia (CT). Ms. Manski is an assistant professor and interim director of the Division of Dental Hygiene. She also serves as director of admissions and recruitment for the Dental Hygiene Program.

INSTRUCTORS**Kevin R. Doring, DDS, MAGD**

Dr. Kevin Doring is a graduate of The Johns Hopkins University and earned his DDS from the University of Maryland

School of Dentistry. He then completed a general practice residency at the Charleston Area Medical Center and received certification as a dental anesthesiologist. Dr. Doring has been actively placing and restoring dental implants since 1985. He is a member of the American College of Dentists, the International College of Dentists, The Pierre Fauchard Academy, and a Master of the Academy of General Dentistry. Dr. Doring has been published in numerous dental journals and has lectured throughout the United States, as well as internationally, on various dental topics. He currently maintains a comprehensive and implant dentistry private practice in Edgewater, Md.

Introduction to Dental Implants

TIME	8:00 a.m. – 5:00 p.m.
LOCATION	University of Maryland School of Dentistry
TUITION	Dentist: \$275.00 Team Member: \$175.00
CREDITS	8 CDE credit hours / Lecture
AUDIENCE	Entire Dental Team

COURSE DESCRIPTION

This course is intended for dentists who want to integrate both the surgical and restorative phases of dental implants into their daily practice. Patient sedation, treatment planning and surgical placement, as well as restorative options, will be presented.

OBJECTIVES:

Upon the completion of this course, participants should be able to:

- Select patients for straightforward implant surgery and restoration
- Understand patient pre-and post-operative care
- Implement dental implantology into their dental practices
- Treatment plan the implant case
- Choose the appropriate surgical and restorative approaches

UNIVERSITY OF MARYLAND SCHOOL OF DENTISTRY CONTINUING EDUCATION

The University of Maryland School of Dentistry is committed to the lifelong education of oral health professionals. The school provides courses designed to meet the needs of all oral health care providers. Based on research in the basic and clinical sciences, the Continuing Education Program offers participants courses that reflect contemporary professional knowledge.

REGISTRATION FORM

Please use one registration form per participant.

Online registration is now available at
www.dental.umaryland.edu/ce.

REGISTRATION CONFIRMATIONS

A registration confirmation will be e-mailed or mailed to you two weeks prior to the course date. This information will include: directions, parking information, registration time, etc.

ENROLLMENT POLICY

Full attendance and course completion is required to obtain credit for any course.

COURSE CHECK-IN

Please check each program description for the location of the course(s). Arrive at least 30 minutes prior to the start of each course to sign in and pick up course materials.

CONTINUING EDUCATION CREDITS

The University of Maryland School of Dentistry is an approved course provider by the Maryland State Board of Dental Examiners. Please contact your state licensing authority for continuing dental education credit hour requirements and regulations. Credit hours are granted on an hourly basis, provided the course is completed. A course certificate will be issued upon completion, verifying attendance and the number of continuing education credits earned.

RECORDING OF CONTINUING DENTAL EDUCATION CREDIT

The University of Maryland School of Dentistry records each course participant's attendance in an electronic database and supplies the participant with a course certificate for each course attended.

Course participants are responsible for forwarding the course credit information to the Academy of General Dentistry or other associations, and for maintaining their own records for license renewal.

DISCLAIMER

Dental educational institutions have an obligation to disseminate new knowledge related to dental practice. In doing so, some presentations may contain controversial materials or commercial references. Sponsorship of a continuing dental education course by the University of Maryland School of Dentistry does not necessarily imply endorsement of a particular philosophy, procedure or product by this institution. Continuing education courses do not necessarily reflect the philosophies of the University of Maryland School of Dentistry pre-doctoral or post-doctoral training programs.

The University of Maryland School of Dentistry Continuing Education Program reserves the right to modify the course content, faculty; and also reserves the right to cancel a program, if necessary, without prior notice. Should a significant change occur, every effort will be made to notify registered participants. In addition, fees listed are subject to change at any time.

CUSTOMIZED CE PROGRAMS

The University of Maryland School of Dentistry is available to assist you with your continuing education needs through custom-designed CE courses.

CUSTOMIZED REMEDIATION IN:

- Contemporary Endodontics
- Composite and Amalgam Restoration
- Diagnosis and Treatment Planning
- Northeast Regional Board (NERB) Preparation
- Restorative Dentistry
- Fixed and Removable Prosthodontics Review
- Dental Hygiene Skill Development

Call for details: 410-706-2282

AIRPORT

The Baltimore Washington International Thurgood Marshall Airport is located 12 miles south of Baltimore. Taxi service is available from all terminals to the University of Maryland Baltimore Campus.

PARKING ON CAMPUS

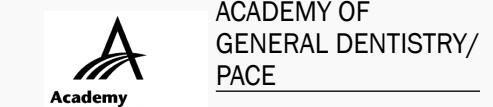

Visitor parking is provided for a modest fee at the Baltimore Grand Garage located at 5 N. Paca Street, Baltimore, MD 21201 (the corner of Baltimore and Paca Streets). The garage is open 24 hours per day, 7 days a week. The University of Maryland School of Dentistry does not assume any responsibility for fines or towing fees.

ASSOCIATION FOR CONTINUING DENTAL EDUCATION

The University of Maryland School of Dentistry is a member of the Association for Continuing Dental Education.

The University of Maryland School of Dentistry is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The University of Maryland School of Dentistry is an approved provider through the Academy of General Dentistry's

(AGD) Program Approval for Continuing Education (PACE). The formal continuing education programs of the University of Maryland School of Dentistry are accepted by the AGD for fellowship, mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry.
